

INTERNAL AND EXTERNAL CHALLENGES

Conference

*In co-operation with the Hungarian Academy of Sciences, Institute for Ethnic and National
Minority Studies*

Budapest, Centre for Social Studies of the HAS

(I. Országház utca 30. – Úri utca 53.)

24–25 May, 2007

The conference is part of the EU 6th framework research project on changing landscape of the European security and liberty, in particular in the enlargement context (<http://www.libertysecurity.org/>). It provides an excellent and effective exchange of views between academics and certain practitioners, decisions makers on regional and EU-wide issues related to the neighbourhood policy, border crossing, integration of migrants and Romas, racism and xenophobia, too. The working packages of the Challenge intend to inspire joint publications, vivid discussion and further research in this domain.

24 May, 2007

11.00-13.00 Scientific Advisory Board meeting (only for its members in the conference room of the Institute for Political Sciences, Országház u. 30. 1st floor)
